SUMMARY

I am a Software Engineer with over 4.5 years of experience in front-end development utilizing technologies such as React.js, Redux, and TypeScript. My expertise extends to building scalable user interfaces, optimizing performance, and implementing RESTful APIs. A strong foundation in the MERN stack has enabled me to successfully contribute to important projects in agile environments while leading teams and mentoring others

EXPERIENCE

Software Engineer

North Shore Technologies (SVAM International Inc.)

06/2021 - 01/2024 Noida

A technology company specializing in software development and IT solutions

- Developed and delivered 3 major projects from scratch, enhancing features and user engagement
